THERMOELECTRIC PANEL COOLER

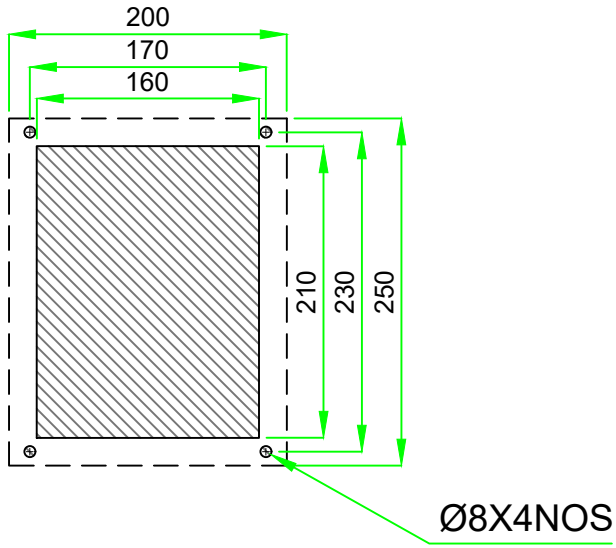

TEC 075 000

- **Structure**
  Enclosure made of (SS304) sheet ensure high stability.
- **Control**
  Temperature controlled by thermostat.
- **Fan**
  Axial fan curved of protected against reverse polarity and locking.
- **Thermo electric module**
  The thermo electric module are designed for extreme ambient conditions as well as outdoor applications.
- **Heat sink**
  Dense fin heat sink for higher quality and more effective.
- **Finishing**
  Buffing-Satin finish .
- **Option**
  Available With micro processor based controller

MOUNTING CUT OPENING

General Features			Product Code : 4130 000 00
S.NO	DESCRIPTION	M.U	SPECIFICATION
1	Model	-	TEC 075 000
2	Capacity	W	75
3	Power supply	DC V	24
4	Power absorbed	W	90
5	Rated Current	A	2.6
6	Temperature Range	°C	-10 to 60
7	Dimension Width x Depth x Height	W mm	250
		D mm	200
		H mm	145
8	Mounting	-	Face Mounting
9	Weight	kg	5.5
10	Material	-	Stainless steel (SS304)
11	Cabinet protection degree	IP	54

DWG NO.4130 000 X00 REV NO: 01 DATE: 18/07/24
